

The dimensions here are close to the final size.  
This file is built one inch to one foot.

PLEASE NOTE: When hanging the display that there is an eyeline here. . . so, the top edge of the words on those panels that have words at the top lines up with the top edge of the photos that are at the top of the plexiglass panels. This eyeline is 4" from the top of the background photos (8" from the top of the plexiglass).

Mission Principles

Mission Principles

All these photos 16" x 10"

These photos would be mounted on Sentra and then raised approximately 3/8" above the background photo.

All background panels would be printed out, mounted on Sentra and then mounted on 1/4" to 3/8" Sentra strips that are mounted on the wall approximately every two feet.

These are Plexiglas panels tinted blue and mounted using wall mounts so they go over the top of the background photo. The distance between the surface of the background photo and the bottom side of the Plexiglass should be between 3/4" to 1" but no more than 1". Type will be vinyl lettering applied to the Plexiglas panel. Color is yet to be determined.

19"

All these photos 12" x 8"

These photos are mounted on Sentra and then mounted onto the top of the Plexiglas. they are to be raised approximately 3/8".

PLEASE NOTE EXCEPTION: This photo is approximately 6.75" from the bottom of the background photo.

PLEASE NOTE: When hanging the display that there is an eyeline here. . . so, the bottom edge of the words on those panels that have words at the bottom lines up with the bottom edge of the photos that are at the bottom of the plexiglass panels as well as SOME of the larger photos that are mounted on the background photo. This eyeline is 4" from the bottom of the background photos (8" from the bottom of the plexiglass).

PLEASE NOTE EXCEPTION: This photo is approximately 6.75" from the bottom of the background photo.
